"The Total Solution from Cornish To Turkey" Scrubbing What Others Can't!

The Davis Tornado can be used for a pre-scald brush or in evisceration. The brushes do not turn fast like a picker. You can replace individual bristles. See your scalding waters and organic matter drop, See your bacteria levels drop, used in conjunction with antimicrobial agents you will be one happy camper. The gear driven counter rotating bristles scrub up and down on the same side so you get awesome cleaning. Low maintenance over a year for your bottom line.

- Patented system.
- Multiple sprays ensure complete washing of critical areas.
- Adjustable, can move in, out, up, and down.
- Disc configuration allows up and down rotation on each bank to ensure proper cleaning in hard to reach areas.
- Drive system is simple, no belts to change.
- Bactericidal rinse compatible.
- Scrubbing what others can't.
